1 TYPES OF SILVER COINS

Bullion Coins

These are minted by governments specifically for investment. Their value is based entirely on their silver weight and the current market price of silver.

American Silver Eagle | Canadian Silver Maple Leaf

Numismatic (Collectible) Coins

These are rare or historical coins. Their value comes from their rarity, history, condition, and demand from collectors, rather than just the silver content.

Junk Silver

This refers to old, circulated government coins (like pre-1965 US dimes or quarters) that have no collectible value but contain a specific percentage of silver.

2 PURITY AND WEIGHT

Fineness (Purity)

Most investment-grade silver coins have a purity of **99.9% (.999)** or even **99.99% (.9999)** pure silver.

.999	.9999
99.9% PURE SILVER	99.99% PURE SILVER

Standard Weight

The most common weight for a standard silver bullion coin is **1 Troy Ounce** (which is approximately **31.1 grams**).

3 BENEFITS OF BUYING SILVER COINS

Tangible Asset

Unlike stocks or digital currency, you can physically hold silver. It has intrinsic value and cannot crash to zero.

Affordability

Silver is much cheaper than gold, making it an excellent entry point for beginners looking to invest in precious metals.

Liquidity

Because government-minted silver coins are recognized globally, they are very easy to buy, sell, and trade anywhere in the world.

Inflation Hedge

Historically, silver maintains its purchasing power over the long term, acting as a shield against inflation and economic instability.

4 WHAT TO KEEP IN MIND

Premiums

When you buy a silver coin, you pay a "premium" over the live market price of silver. This covers minting, shipping, and dealer costs.

Storage and Safety

You need a secure place (like a home safe or a bank locker) to store physical coins safely.

INVESTMENT | SECURE ASSET | GLOBAL LIQUIDITY | WEALTH PROTECTION | AFFORDABLE ENTRY | LONG TERM VALUE

AUTOMATIC • DECENTRALIZED EQUAL DISTRIBUTION PLAN

MARKET RATE Rises Daily

This is a **fully automated, decentralized** crypto plan. It is a plan that distributes coins to everyone equally through an auto-tree and auto-pool system; the market rate of the coin rises daily, and you can secure your future with **AGS COIN.**

A plan like this has never hit the market before;

fulfill all your family's dreams—don't just walk or stop,

it's time to soar.

- ✅ No boss, no risk—earn unlimited amounts every day.
- ✅ You can buy **1 AGS COIN** for **1 USDT** or **100 INR** and sell it in the market anytime with a **1%** deduction.

BUY 2 AGS COINS

Through the **daily auto-fill tree** generation you will receive:

A + B = 1 COIN
from the 2 IDs placed after you,

C + D + E + F = 2 COIN
from the 4 IDs placed after that,

Total = 3 AGS COINS for you.

Buy 1 AGS COIN for 1 USDT or 100 INR

Sell Anytime with 1% Deduction

The system automatically generates a new ID for the re-topup, ensuring the cycle **never stops**; new IDs continue to be created, and the pool keeps **auto-filling.**

You receive **6 IDs** into your system from the auto-tree, yielding **150% growth** instantly, and you can sell the coins at any time.
